# Marketing Tools

- **NEW** Receive internet phone calls from your web site visitors. Make a quick sale. [SipTele.com](http://SipTele.com)
- **NEW** See the top 100 keywords and phrases being used on several popular search engines - in real time! Not yesterday's or last month's results. Right now. Real-time! [AnalogX.com](http://AnalogX.com)
- **NEW** Ultimate keyword generator creates "neighborhood" keywords (car = bus, train, plane, etc) and relevant keywords (car = Honda, Ford, Audi, BMW, etc). [UltraKeyword.com](http://UltraKeyword.com)
- Free point-and-click toolbar creator that allows you to update the toolbar anytime from the web and all users see the changes. [EffectiveBrand.com](http://EffectiveBrand.com)
- 12 free search engine optimization tools to optimize, analyze, promote and maintain your site to get top listing in search engine results. [WebCEO.com](http://WebCEO.com)
- Free ad tracking with click tracking, cost and cost-per-click reporting -- great for determining what's popular on your site AND use in advertising. [ClickAudit.com](http://ClickAudit.com)
- Free affiliate script upgraded with just the right touch. Recruit an army of marketers to promote your product! [SonicFog.com](http://SonicFog.com)
- Free autoresponder site with no ads AND is not banned by ISP's (*like an un-named popular site*). [AutoSenders.com](http://AutoSenders.com)
- Search nearly 30,000 forums by keyword. See if there's a "buzz" for your topic. [Forum-Tracker.com](http://Forum-Tracker.com)
- **Secret Bonus:** Track hundreds of thousands of keywords, people and issues posted in online forums and message boards. Email alerts. [BoardTracker.com](http://BoardTracker.com)
- Submit your software to 100+ software directories free with one upload. Promote your demo, freeware or shareware -- but NOT ebook. [PadGen.org](http://PadGen.org)
- Learn where to submit your Yahoo! sitemap. Similar to Google's sitemap. But not as easy to find -- until now. [Yahoo! Submit](http://Yahoo! Submit)
- Find expired domains listed in Yahoo!, DMOZ and more. Buy it and grab more traffic plus get paid when visitors click on your AdSense ads. Even link to your main web site. [ExpireSoft.com](http://ExpireSoft.com)
- Discover the actual bid amounts your competition is paying for Yahoo! ads. [Yahoo! Bid Amounts](http://Yahoo! Bid Amounts)
- See your competition's rank and keywords they bid on at Google. [GoogSpy.com](http://GoogSpy.com)
- Find keywords as low as 5¢ per click. Yes, they're still available and this site shows you 1,000's of them! [CheapKeywords.com](http://CheapKeywords.com)
- Use a free Google sitemap generator that allows 750 URLs. (*Most freebies only allow a couple dozen URLs before they charge you.*) [SiteMapDoc.com](http://SiteMapDoc.com)
- Stuck on how to write a quality press release that gets accepted? Use this free [Press Release Generator](http://Press Release Generator).
- Use this secret vault to submit your site to HUNDREDS of directories and search engines (*no FFA's or junk*). [Site Vortex](http://Site Vortex)
- Increase your ranking with multiple free PR8 backlinks to your web site. [Craigslist.org](http://Craigslist.org) (Simply post free ads with hyperlink to your site. Voila! PR8 link.)
- Discover the incredible Headline Analyzer. Learn if you need to improve your headline to grab people's attention. [AMinstitute.com](http://AMinstitute.com)

**More marketing tools and resources - [click here](#)**

## Web Site & Internet Tools

- **NEW** Encrypt your email messages so the Government and others can't read them. [GPG4Win.org](http://GPG4Win.org)
- **NEW** Imagine PCAnywhere or GoToMyPC as freeware. Stop imagining. It's here! [Avvenu.com](http://Avvenu.com)
- **NEW** FTP your files securely and encrypted during transfer. [WinSCP.net](http://WinSCP.net)
- **NEW** Fast download manager with multiple threads and resumes where you left off. Plus many more features. [FreeDownloadManager.org](http://FreeDownloadManager.org), [Leech.net](http://Leech.net)
- **NEW** Optimize your FireFox web browsing experience. Goes faster and smoother. [TotalIdea.com](http://TotalIdea.com)
- **NEW** Use a free Tabbed Internet Explorer browser. [Maxthon.com](http://Maxthon.com), [CrazyBrowser.com](http://CrazyBrowser.com)
- Free flash menu maker. Have your site look professional. Or even start a flash menu making business! [GUIstuff.com](http://GUIstuff.com)
- Free flash web site builders. Discover multiple point-and-click flash builders. Choose your favorite. [FlashBuilder.net](http://FlashBuilder.net), [10MinuteFlash.com](http://10MinuteFlash.com), [HooverWebDesign](http://HooverWebDesign), [AmazingFlash.com](http://AmazingFlash.com)
- Use the top-notch CSS Menu Maker. Still a favorite among webmasters. [Webmaster-Toolkit.com](http://Webmaster-Toolkit.com)
- Create a Niche Blog Empire. One install. Multiple blogs. Dozens of incredible plug-ins. [NucleausCMS.org](http://NucleausCMS.org)
- Automatic posting to your blog. Grabs feeds you choose and posts to your blog for fresh content automatically -- free! [ReBlog.org](http://ReBlog.org)
- Use this script to build an instant content site with RSS Feeds, Blogs, Articles and more. [MamboServer.org](http://MamboServer.org)
- Find the best commercial-grade free support ticket system. Look like a Fortune 500 company! [OSTicket.com](http://OSTicket.com)
- Increase sales with this superior Live Support Chat system. It even notifies you if someone is visiting your site so you can initiate a live chat session and recommend products! [CraftySyntax.com](http://CraftySyntax.com)
- Start your own marketing forum -- or any topic because it includes unlimited topics. Create your own captive audience. [phpBB.com](http://phpBB.com)
- Put Live Chat on your site for your visitors. This is great if you have a dating site! [Download](#); [Support](#)
- Discover the most complete eCommerce solution with both physical and download products. Works with Paypal, 2Checkout, Authorize.net and more. [OSCommerce.com](http://OSCommerce.com) , [Tutorials](#)
- Display LIVE audio and video feeds without your visitor having to download plug-ins. (*NOTE: this is LIVE audio or video. Not pre-recorded.*) [WW.com](http://WW.com)
- Sell ads on your site just like the "big boys." Sell per click, per impression, per time period, whatever your choose. Display text ads, banner ads and multi-media ads. Customers have their own login to check statistics...free! [phpAdsNew.com](http://phpAdsNew.com)
- Finally experience the best mailing list script with multiple categories, open tracking, click tracking, advanced bounce management/removal, send in html or text, ISP friendly (picks up where left off - if stopped), includes attachments, pdf on fly, batch processing, personalization, templates and much more. [phpList.com](http://phpList.com)

- Fix your flash and embedded codes free. Microsoft finally lost a lawsuit and was forced to change their browser bundle. Embedded media won't work with new upgrades. Change your site so it does work. [FastObjectFix.com](http://FastObjectFix.com)
- Still extremely effective. Use the drop-in ad window generator with different styles. Rapidly build your mailing list or use as a sales count down timer to increase sales. [iCoder.com](http://iCoder.com)
- Easily shorten your affiliate, tracking or long web address with one click. [TinyURL.com](http://TinyURL.com)
- Believe it or not, there is still quality, free web hosting. We give you 3 sources. [FreeWebs.com](http://FreeWebs.com), [Web1000.com](http://Web1000.com), [DotEasy.com](http://DotEasy.com)
- Perhaps still the best free FTP software around. More and more FTP software are becoming commercial. Not these! [FileZilla](http://FileZilla), [CoffeeCup.com](http://CoffeeCup.com)
- More amazing web site tools like: .htaccess generator, MOD re\_write wizard and more. [Webmaster-Toolkit.com](http://Webmaster-Toolkit.com)

- **NEW** Split and re-join .avi files. [BoByte.com](http://BoByte.com)
- **NEW** Convert DVD into RealMedia format. [FilmShrink](http://FilmShrink)
- **NEW** Record and edit up to 16 tracks simultaneously. Dub over existing tracks. Import/export multiple formats. Cool, professional special effects and more. [Audacity](http://Audacity)
- **NEW** Turn your computer keyboard into a 4-octave piano keyboard. [AnalogX.com](http://AnalogX.com)
- **NEW** Play REAL audio (.ra, .rm) files without the REAL audio software. Great Real alternative. [Free-Codecs.com](http://Free-Codecs.com)
- **NEW** Tired of QuickTime loading to slow and taking up valuable hard drive space? Try this free alternative. Smaller file. Faster loading. Fully compatible. [Free-Codecs.com](http://Free-Codecs.com)
- **NEW** PodCast Generator - lets users upload media files by a web form and automatically create RSS 2.0 W3C-compliant podcast feeds. It also features a web administration and displays new podcasts. [PodCastGen](http://PodCastGen)
- **NEW** RSS Generator - create new headlines, modify existing ones, or preview what they will look like. Script writes directly to XML file. No database needed. [BusMgtSys.com](http://BusMgtSys.com)
- **NEW** Text-to-speech Reader. Listen to your Text files, MS Word files, Internet Explorer webpages, Adobe PDF files, Emails and AOL, AIM, ICQ, and MSN Messenger. Also write audio data directly to Windows WAV files. You can convert all your documents and ebooks into WAV files and then burn them to audio CDs or convert them into MP3 files. You can listen to your ebooks on the road with a standard CD or MP3 player! [NaturalReaders.com](http://NaturalReaders.com), [ZabaWare.com](http://ZabaWare.com), [SayzMe](http://SayzMe)
- **NEW** Easily edit, debug, analyze and publish PHP scripts. [MPsoftware.dk](http://MPsoftware.dk)
- **NEW** PHP/mysql database code creator. Fill out form. Script creates form code for add, edit, delete, show data, etc. [SFU.ca](http://SFU.ca), [DaDaBik.org](http://DaDaBik.org), [dbWizard](http://dbWizard), [dbQwikSite.com](http://dbQwikSite.com), [PHPcodeGenie](http://PHPcodeGenie), [Knebel.net](http://Knebel.net), [BigProf.com](http://BigProf.com) (\$35, but excellent!)
- **NEW** Generate CAPTCHA images to prevent programs from automatically filling out your forms. [NeoProgrammers.com](http://NeoProgrammers.com)

- **NEW** Generate color charts for your website on the fly with this fantastic php class. [PanaCode.com](http://PanaCode.com)
- **NEW** Easily create password protected web site areas with this web login generator script. [Knebel.net](http://Knebel.net)
- **NEW** Encode your php scripts. Include time expire and domain binding. [SonicPoint.com](http://SonicPoint.com)
- **NEW** Convert your web site so it is cell phone and PDA compatible. [EasyRiver.com](http://EasyRiver.com)
- **NEW** Free barcode generators. Use on your book covers. [BarCodesInc.com](http://BarCodesInc.com)
- **NEW** See what your website looks like in other browsers. [AnyBrowser.com](http://AnyBrowser.com)
- **NEW** Need a non-disclosure agreement? Create one online for free. [EasyRiver.com](http://EasyRiver.com)
- **NEW** Use the online disclaimer builder free. [EasyRiver.com](http://EasyRiver.com)
- **NEW** Use the online privacy policy builder free. [EasyRiver.com](http://EasyRiver.com)
- Free software creates PC Videos then stream it on your web site with no plug-ins (membership area?), OR save it as an executable file (.exe) for download or CD. [Wink 2.0](http://Wink 2.0)
- Already have a flash file and just want to sell it? Simply convert it to an .exe file with three clicks. [Brinkster.com](http://Brinkster.com)
- Morph, warp and distort images and animations with many output formats - even flash. Have fun. Get crazy. Get noticed! [WinMorph](http://WinMorph)
- Quickly and easily create slick presentations or ebooks in flash with hyperlinks and no experience. Just type, click and drag. Save in flash or .exe format. [PowerBullet.com](http://PowerBullet.com)
- Own the best free What-You-See-Is-What-You-Get (WYSIWYG) HTML Editor to create web pages and sites. Includes dozens and dozens of script snippets. [EvrSoft.com](http://EvrSoft.com)
- Use this high-end graphics creator and editor. Easier than Photoshop. Same or better quality -- and it's free! (*No it's not Gimp. Far superior.*) [FreeSerifSoftware.com](http://FreeSerifSoftware.com)
- New! 3D animation and modeling software is now free. Simply amazing. [FreeSerifSoftware.com](http://FreeSerifSoftware.com)
- Picture Microsoft Publisher with 500+ built-in templates, except it's free. [FreeSerifSoftware.com](http://FreeSerifSoftware.com)
- Something everyone's been seeking -- create PDF files with all attributes of HTML, MS Word and more. Keeps links active. It's an all-in-one software. If you can use MS Word, you can use this! Import your HTML files, export as PDF with links! Even keeps tables. Way too much to list here. Simply awesome AND the last freeware edition. (*This directory was created using this free software.*) [Tomahawk](http://Tomahawk) (if no longer available, contact [publisher](http://publisher))
- Every digital author needs this -- a free installer. Very simple to use. Can automatically create desktop shortcuts, menu insertion and even start program at start up and more. [ClickTeam.com](http://ClickTeam.com)

**More authoring tools and resources - [click here](#)**

## PC Security & Utility Tools

- **NEW** Password protect a text file. Keep your passwords and personal information safe from prying eyes. [Steganos.com](http://Steganos.com)
- **NEW** Read, view, print and even type on PDF files. Loads much faster than Acrobat Reader. Smaller file. Less than 1mb. Great alternative! [FoxItSoftware.com](http://FoxItSoftware.com)
- **NEW** Forget WinZip. Here's free zip software. Make your own zip archives - even encrypted - and unzip 20 file types. [ZipGenius.it](http://ZipGenius.it)
- **NEW** Partition your hard drive. Have one area for internet and one area for password-protected personal files. [Visopsys.com](http://Visopsys.com)
- **NEW** Recover lost partitions on a hard drive. [CGSecurity.org](http://CGSecurity.org)
- **NEW** Completely erase files you thought were deleted. Geeks/Experts can retrieve files even after you delete them. Not anymore with this handy free software. [AnalogX.com](http://AnalogX.com)
- **NEW** Magically bring deleted files back from the dead. [PCInspector.de](http://PCInspector.de), [OfficeRecovery.com](http://OfficeRecovery.com)
- **NEW** Split a large file into smaller files and rejoin them again. [FreeByte.com](http://FreeByte.com)
- **NEW** Download free files from around the globe with this simple to use, fast and easy bit torrent software. [AnalogX.com](http://AnalogX.com)
- Consistently beats commercial anti-virus software as reported in PC Computing. And it's free. [AVG - Grisoft.com](http://AVG-Grisoft.com)
- Use this great firewall to keep out hackers and other intruders while you're online. [ZoneLabs.com](http://ZoneLabs.com)
- Never fear the mega-marketers again. Run this adware killer. [Ad-Aware by LavaSoft.com](http://Ad-Aware by LavaSoft.com)
- Don't give out your private information unwillingly. Use this spyware killer. [SpyBot](http://SpyBot)
- Often forgotten, but slows down your computer dramatically is unused registry entries. Find and delete them PLUS discover what software is secretly starting when you boot up your computer! [RegSeeker](http://RegSeeker)
- Ever accidentally delete a file? Now you can recover it without paying \$100 per hour to data recovery specialists. Just use this software. [aplusfreeware.com](http://aplusfreeware.com)

**More PC security tools and resources - [click here](#)**
